mg

SERENOA REPENS
per capsule

**Contributes
to the physiological function of the prostate
and of the urinary tract system.**

• Food Supplement with Serenoa Repens • Sugars & Sodium Free

The prostate is a gland of the male reproductive system. It is located in front of the rectum and just below the bladder, the organ that stores urine. During a man's lifetime, the prostate undergoes various changes, and after his 4th or 5th decade of life, benign prostatic hyperplasia (BPH) may occur. BPH is characterized by an increase in the size of the gland which leads to disturbances in urination. The extract of Serenoa repens has been used for many years to treat prostate problems, while the pumpkin seed oil is related to the maintenance of normal prostate size and to the normal function of the urinary system.

Nutrients	Composition per 1 soft capsule
Serenoa repens (85% free fatty acids)	320 mg (extract), 272 mg (fatty acids)
Pumkin seed oil	180 mg
beta-sitosterol	0.48 mg

Dosage:

Take 1 soft capsule per day along with a meal.

Precautions:

- Do not exceed the recommended daily dosage
- Food supplements should not be used as a substitute for a balanced diet
- This product is not intended for prevention, treatment or cure of human disease. Consult your doctor if you are under medication or having health problems
- Store in a dry and cool (15-25°C) place, out of children's reach
